

Coastal Café

“ Linking Ocean Health and Human Health for Sustainable Management of Coastal Ecosystems”

Tuesday July 24 from 3~5pm
Broadway I & II

Facilitate communication among NOAA’s ocean and human health (OHH) researchers, coastal zone and natural resource managers, and decision-makers

Come identify the information, technology, and training needs of public health and resource managers related to OHH

Discussion groups will be set up to address some of the questions below:

What OHH issues are emerging in your management plans?

Other than funding, what are the primary challenges in dealing with this issue?

Are there specific research products, information or partnerships that would be particularly helpful to you?

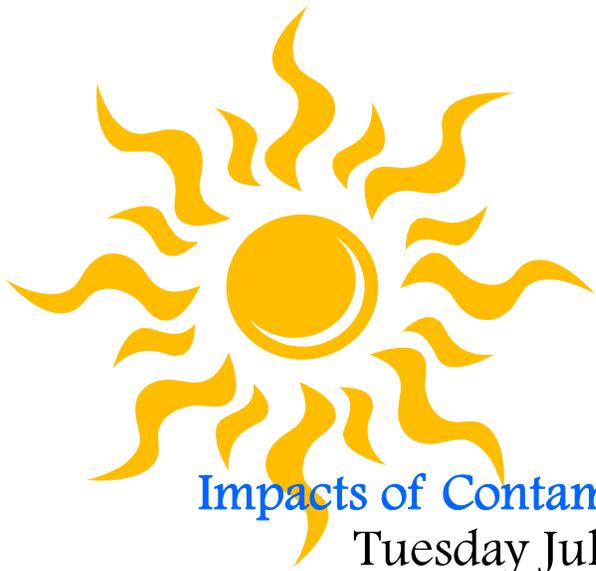

NOAA Center of Excellence in Oceans and Human Health
Hollings Marine Laboratory—Charleston, South Carolina

NOAA West Coast Center for Oceans and Human Health
Northwest Fisheries Science Center—Seattle, Washington

NOAA Center of Excellence for Great Lakes and Human Health
Great Lakes Environmental Research Laboratory—Ann Arbor, Michigan

BE SURE TO ATTEND THESE OTHER OHH SESSIONS!

PANELS

Impacts of Contaminants in the Marine Environment

Tuesday July 24 from 10:30-12:00 pm

Pavilion West

Linking Ocean Ecosystem Health to Public Health

Thursday July 26 from 8:30-10:00 am

Broadway III & IV

The Role of Sentinel Habitats as Indicators for Ocean and Human Health

Thursday July 26 from 3:30-5:00 pm

Parlor A B & C

POSTERS

Development of a Knowledge-Base in Support of Southeastern Tidal Creek Research at the NOAA Center of Excellence in Oceans and Human Health at the Hollings Marine Laboratory

Tuesday July 24 from 5:30-7:30 pm

Pavilion West/Poster Reception
